

# The OBO portfolio for direct fastening

Firing is the  
new screw  
fastening

## OBO relies on energy-efficient, time-saving solutions

Did you know that OBO offers various product solutions for direct fastening with a firing tool? This includes GRIP cable ties and pressure clips. These solutions can be fastened in different substrates, such as concrete or steel, in both new and existing buildings.

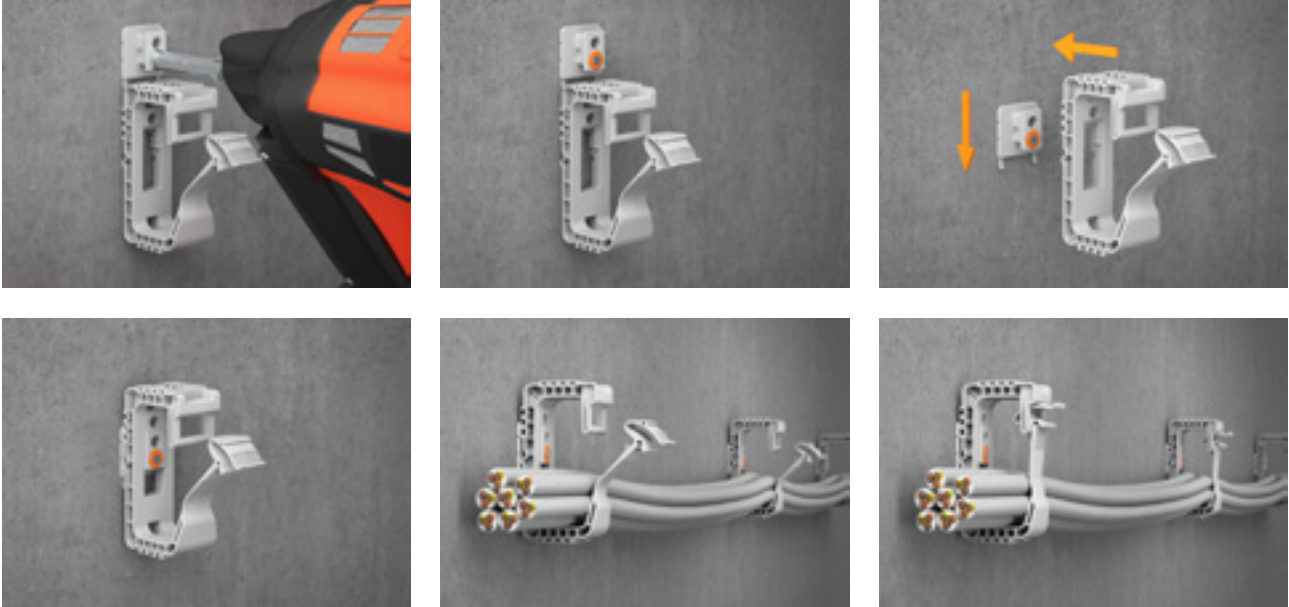

Don't waste any time: Using a firing tool for direct fastening not only saves time and energy, it also prevents excessive dust production, giving you a significant installation benefit.
